Professional Summary

AI Marketing Automation Engineer who designs and builds **production-grade autonomous AI agents and multi-agent systems** that run marketing, sales, and operational workflows at scale.

I specialize in creating intelligent, event-driven AI systems using Claude Code, n8n + MCP, RAG, and multi-agent orchestration. These systems autonomously handle lead generation, campaign optimization, content creation, and customer interaction — delivering measurable business impact including reduced manual work by 70–80%, improved ROAS, and higher conversion rates.

Notable work includes building the **Printo Lead Engine**, a full autonomous AI operating system with 11 specialized agents and a voice-first AI assistant (Ibrahim). Google AI Professional and Google Ads AI-Powered Performance certified.

Key AI Projects & Systems

Printo Lead Engine – Autonomous AI Multi-Agent Sales Operating System

Built a complete autonomous AI system with 11 specialized agents that discover prospects, generate professional AI mockups & brochures, send personalized outreach, classify replies, escalate hot leads, track competitor ads in real time, and self-optimize. Features a cinematic dashboard and **Ibrahim**, a voice-first bilingual AI assistant that controls the entire engine through natural conversation. Currently in active development and testing.

Autonomous Google Ads Optimization Agent

Production AI agent using Claude Code that autonomously monitors campaigns, applies bid/keyword/negative rules via GA4, and delivers daily optimization actions. **Impact:** Reduced manual optimization time by over 75% and improved ROAS by 18% quarter-over-quarter on AED 42K spend.

“Adam” – RAG Quote & Lead Response Agent

Generative AI agent with retrieval over product knowledge base that handles web and WhatsApp inquiries, returns instant accurate quotes, and logs conversions automatically. Significantly improved lead response time and conversion rates.

WhatsApp Lead-to-Quote Full Automation System

End-to-end Click-to-WhatsApp automation combining n8n + MCP, WhatsApp Business API, and AI to qualify leads, generate quotes, and maintain perfect closed-loop attribution.

TubePilot – Autonomous YouTube SEO Optimization Agent

Built an autonomous agent that optimizes large YouTube video catalogs (780+ videos). In one run, it automatically optimized 194 videos across multiple languages, improving channel SEO health to 59/100.

Technical Skills

Agentic AI & Multi-Agent Systems Production AI Agents • Multi-Agent Orchestration • Claude Code & Computer Use • n8n + Model Context Protocol (MCP) • RAG Systems • LLM API Integration (Groq, Anthropic, OpenAI) • Event-Driven Architecture • Workflow Automation • Agent Evaluation & Self-Healing

Performance Marketing & Growth Google Ads (Search, Performance Max, Demand Gen, Smart Bidding) • Meta Ads & Advantage+ • TikTok & Snapchat Ads • Full-Funnel Strategy • CRO & Experimentation • GA4 + Server-Side Tracking • Advanced Attribution

AI Development & Infrastructure Next.js 14 + TypeScript • Python (Flask/FastAPI) • Three.js / React Three Fiber • Google Sheets as CRM • Google Places API • Playwright Automation • SDXL + Custom Visual Pipelines • Voice AI (ElevenLabs)

Professional Experience

AI Marketing Automation Engineer (Performance Marketing Focus)

Printo – Rainbow Printing Industries, Dubai | July 2024 – Present

- Designed and built multiple **production AI agents** and a full multi-agent operating system (Printo Lead Engine) that autonomously manages prospecting, creative generation, outreach, reply classification, and competitor intelligence.
- Scaled Google Ads (Search + Performance Max) to **3,750 conversions on AED 42K spend** using Smart Bidding, RSA experimentation, and AI-assisted optimization. Top responsive search ad achieved 5.83% CTR across 82,000+ impressions.

- Implemented comprehensive GA4 + server-side GTM attribution infrastructure that identified and reallocated **AED 11K/month** of misallocated spend to higher-LTV categories.
- Engineered AI-powered systems for real-time audience analysis, ad copy generation, and automated quote handling that consistently delivered high-performing creatives and faster lead response.

Performance Marketing Specialist

Good Morning Property, Dubai | November 2023 – June 2024

- Launched and scaled a full-funnel Meta Ads strategy (Click-to-WhatsApp + Lead Generation) that delivered **80 qualified buyer leads in 30 days** at AED 76.38 CPL.
- Built sophisticated audience segments and executed rigorous AI-assisted A/B testing while protecting lead quality through the sales handoff.

Performance Marketing Specialist

ICON Ad Agency, Dubai | November 2021 – October 2023

- Managed paid media across Google Ads, Meta Ads, TikTok, and Snapchat for 10+ clients. Achieved **+30% average CTR** and **-22% CPA** through systematic testing and optimization.
- Automated 80% of recurring campaign operations using Zapier and custom GPT scripts. Grew organic traffic by +45% through AI-assisted SEO strategy. Awarded Employee of the Month.

Digital Marketing Specialist

Deewan Equipment Trading, Dubai | January 2020 – October 2021

- Directed B2B paid search and lead generation across GCC markets. Grew qualified leads by +30% and reduced CPA by 28%.
- Combined PPC retargeting with technical SEO and rebuilt the company website, increasing sales quote requests by +20%.
